PROFILE

Bachelor of Information Technology education student at the Faculty of Computer Science, Brawijaya University, with a strong interest in education, programming, web development and related fields. My academic journey has equipped me with a deep understanding of education and computer science. I have successfully applied theoretical knowledge into practical experience, contributing to a variety of projects in a variety of roles. This shows my flexibility and adaptability in different work environments. Through this experience, I have enhanced my skills and expertise, further solidifying my readiness to excel in a variety of IT-related roles.
